

Student Name: Rico Spinner  
School: Mary McLeod Bethune Day Academy  
Grade: 7  
Topic: Bullying

Kids are thinking of killing themselves everyday because of these bullies. Kids are getting bullied everyday and say nothing to prevent it from going to something even worse. Please leave me be and please don't hurt me.

We as kids almost think of killing ourselves or not wanting to go to school anymore. On netflix I was watching a Bullying documentary about bullying and one of the students was pushed into a nail and I was like " Oh my gosh that it is so scary to see a student get pushed into a nail". Bullying is not very nice and good to do to a student or anybody. On Netflix I was also watching a tv show Cobra Kai and one of the students was bullied everyday and picked on because he was a smart person and they called him names almost everyday. Kids can't go to school and be themselves because they get bullied every day and can't express themselves and it hurts me to see that. In the next paragraph we are going to be talking about is bullying good or bad.

Is bullying good or bad? Bullying is bad because it makes people not feel alive or express themselves. Because of these bullies people don't like being alive or not welcome. The reason why people don't like feeling alive is because bullies make them feel like they shouldn't be alive. Bullying is not bad because let's say someone is picking on you and to you it starts to feel annoying and you tell the teacher but does nothing and you have to take matters into your own hands. Another reason why bullying is bad is because you make kids not want to be around anyone including you because you're making their lives miserable. Next paragraph we are going to talk about when the students can go to school and express themselves.

When can the kids go to school and express themselves? Let's start by saying you're the bully. It's an example: don't worry I'm not calling you one and you're bullying someone after you finish. You think to yourselves why am I bullying people? You really think to yourself what have they done to me?

Now you're really thinking and you come to the conclusion that you were bullied when you were younger and you promise yourself that you would bullied anyone. Now you stop thinking and you said "I Am very sorry for how everyone is treated here. The only reason why is because when I was younger I was bullied and I promised myself that I would bully anyone I see in my grade". Everyone is shocked that you said that and they said " Oh my gosh that is a very sad story". Now you all come together and say we should set an example for the younger students so they don't do what we did ok. The school is officially back to the way it was. Everyone is friends now and they did happily after.

Kids are thinking of killing themselves everyday because of these bullies. I think the bullies should be disblend for what they have done to other students and they shouldn't be able to talk about anybody in the school and shouldn't be able to talk to the students that they have bullied.
